
Semata

June — July 2026

THE FOCUS

Build and sell the sourcing and shortlisting product — step by step, slice by slice.

Build

June → July

— Sourcing MVP live

Buy the data, build self-filter UI — surfaces candidates via LinkedIn and ATS based on competency signals

— Self-serve onboarding

Anyone can log in, set up their roles, and get value independently

— Seamless sourcing + shortlisting flow

Single end-to-end experience from finding candidates to ranking them

Validate

Ongoing

— SYSTEMIQ: all roles configured, real-time updates running

Make them a genuine success story

— 1–2 additional pilot customers, charged at cost

Go out with the full sourcing + shortlisting offer once MVP is ready

— Build positioning in real time

Note what makes people lean in across every pilot conversation

AUGUST

Active outreach & marketing · Positioning one-pager · Financial planning & forecasting · Scale pilot conversations

NORTH STAR

By August, someone who has never heard of Semata can log in, find a candidate they wouldn't have found otherwise, and understand immediately why it's useful.
